

Table of contents

Introduction	9
Chapter 1	
Theory of innovation	19
Introduction	19
1.1. The evolution of the approaches to innovation	20
Summary – evolutionary patterns	24
1.2. Innovation in economic theory	26
1.2.1. Firm/strategic business unit/programme level	26
1.2.2. Sector/economy level	32
Summary – economics of innovation	36
1.3. Innovation in the service sector	37
1.3.1. Formation phase (1986–2000)	38
1.3.2. Maturity phase (2001–2005)	40
1.3.3. Multidimensional phase (2006–present)	42
Summary – innovation in services	44
1.4. Innovation in tourism companies	45
1.4.1. Initiation phase (1980–1999)	47
1.4.2. Maturity phase (2000–present)	48
Chapter summary	54
Chapter 2	
Enterprise value and its determinants	56
Introduction	56
2.1. Approaches to valuation	58
2.1.1. Discounted cash flow-based	62
2.1.2. Relative valuation	63
2.1.3. Accounting and liquidation-based	65

6 Table of contents

2.1.4. Goodwill-based	66
2.1.5. Acquisition value-based	68
2.1.6. Leveraged buyout-based	68
2.1.7. Market value-based	69
Summary – approaches to valuation	70
2.2. The value of public companies	70
2.2.1. Market value of equity	71
2.2.2. The role of information in shaping the market value of equity	74
2.2.3. Market efficiency	76
Summary – value of public companies	80
2.3. Factors driving the market value of equity	81
2.3.1. Theoretical background	82
2.3.2. Factors used in empirical researches	84
Chapter summary	91

Chapter 3

The model approach to linking innovation and the market value of tourism enterprises 94

Introduction	94
3.1. A systematic approach to literature studies	96
3.2. Linking innovation to the market value of tourism enterprises	106
3.2.1. Innovation-level variables	106
3.2.2. Firm-level variables	111
3.3. Model development and hypotheses	117
3.3.1. Context	117
3.3.2. Innovation-level predictors	120
3.3.3. Firm-level innovation-related predictors	123
3.3.4. Interaction and second-order effects	123
3.3.5. Control variables	124
3.3.6. The model	125
Chapter summary	129

Chapter 4

Methods of empirical research 131

Introduction	131
4.1. Context and design of the study	133
4.2. Description of the population	136
4.2.1. Specification criteria	136

4.2.2. Methods of the selection of subjects	141
4.2.3. Data collection	147
Summary – description of the population	152
4.3. Variables description	152
4.3.1. Dependent variables	153
4.3.2. Independent variables	163
Summary – variables	165
4.4. Data analysis	166
4.4.1. Descriptive statistics	167
4.4.2. Regression	167
4.4.3. Multiple regression assumptions	171
Chapter summary	174
Chapter 5	
Results and discussion	176
Introduction	176
5.1. Changes in market value of equity	177
5.1.1. Short term	178
5.1.2. Long term	184
Summary – significance	188
5.2. Descriptive statistics	189
5.2.1. Short term	189
5.2.2. Long term	196
Summary – statistical analysis	202
5.3. Empirical verification of the model	202
5.3.1. The models	203
5.3.2. Short term	205
5.3.3. Long term	214
Chapter summary	220
Conclusions	227
References	235
List of tables	260
List of figures	262
Appendices	263
